

PROSAFE 2 overal unisex s kapucí - bílá

Kód: PS2

Popis produktu

Balení 50 kusů Description The ProSafe® 2 from DS SafetyWear is a certified disposable protective suit of Category III and offers reliable protection in work environments where hazardous particles, dusts, or contaminated liquid splashes occur. Especially for asbestos work, the suit is a proven choice due to its Type 5B certification. Standards and protection performance Type 5B (EN ISO 13982-1): Protection against airborne solid particles such as asbestos, glass wool, or other fine dusts Type 6B (EN 13034): Limited protection against liquid splashes, for example when using cleaning or disinfecting agents EN 14126: Protection against biological hazards such as viruses and bacteria EN 1149-5: Antistatic – suitable for use in explosive atmospheres Use with asbestos For activities such as asbestos remediation, particle-tight protective clothing according to Type 5B is required. The ProSafe® 2 fully meets this requirement and protects the wearer from hazardous, respirable fibers released when handling asbestos. Combined with its liquid-repellent effect (Type 6B), the suit is also suitable for additional cleaning and decontamination work in the surrounding area. Material and Equipment The suit is made of a microporous, antistatic laminate that is lightweight, breathable, and at the same time highly protective. For tight seals and a secure fit, the following ensure: Three-piece hood Reinforced insole Double-covered zipper Integrated thumb loops Colors and sizes Available in White and Blue, adapted to different work environments. Sizes from XS to XXXL guarantee a good fit for all body types. Manufacturer according to GPSR: DS SafetyWear Arbeitsschutzprodukte GmbH, Im Rohnweiher 14, D-53797 Lohmar. EN-1149-1 EN-1149-1 EN-13982-1 EN-13982-1 EN-13034 EN-13034 EN-1073-2 EN-1073-2 EN-14126 EN-14126
